

SAP STORE MOBILE APPLICATION FOR ANDROID

With this SAP Store mobile solution, the customer can browse, search for and explore mobile solutions in the SAP Store, that have been created by SAP and SAP partners. The customer can try out a solution, or buy a solution directly. With this application it is also possible to request a quote for a mobile solution.

▼ WORKING WITH THE SAP STORE APP

▼ Search for a Mobile Solution

Tap the **Search** icon and enter the name of a solution or vendor to find a solution in the SAP Store.

▼ Home

SAP Store for Android has four icons on the **Home** screen:

- **Solutions:** Tap to get an overview of the wide range of mobile solutions that are available in the store. In the **Solutions** screen, you can sort the solutions by **Most Popular**, **What's New**, and **Recommended**.
- **Business Areas:** Tap to filter the mobile solutions by business area.
- **Industries:** Tap to filter the mobile solutions by industry.
- **Providers:** Tap to get an overview of the providers of the solutions. Tap a solution provider to get a list of all the solutions by that provider.

▼ Display the Details of a Mobile Solution

To view the details of a solution, tap the solution, or, in the **Featured Solutions**, tap the icon of the solution. The following details are displayed:

- **Images:** These are screenshots of the product to give you an idea of what the mobile solution can do.
- **Solution Description:** Here you can see details such as the product version, the publishing date and the countries in which the solution is available. There is also a detailed description of what the solution does.
- **Solution Provider:** Here you have the details of the provider of the mobile solution.
- **Technical Information:** Any technical prerequisites for the mobile solution are detailed here, along with the solution version, and the devices that are supported for the solution.
- **Send Review to SAP:** Tap here to rate and review a solution that you have downloaded.
- **Share this Solution:** Use this function to inform others of mobile solutions you have found in the SAP Store. You can do this by writing an e-mail, posting the solution on Facebook, or sharing the solution on Twitter.
Note: You must have an account with Facebook and Twitter in order to share the solution there.
- **Call:** Tap here to get in touch with sales support.
- **Terms and Conditions:** The terms and conditions for the mobile solution.

▼ Get in Contact

You can get more information about a mobile solution by providing SAP and SAP partners with your contact information. To do so, display the details of the solution and then choose **Contact Me**. In the **Contact Info** screen that opens, fill in the mandatory details, which are your name, e-mail address, and company. You may also enter a telephone number where you can be contacted, if you wish. Check the box to agree with the terms and conditions and then choose **Submit**. A confirmation e-mail is sent to the address that you specified in the **Contact Info** and a representative of the SAP Store team will contact you.

Note that you can edit your profile information at any time by tapping the **Settings** icon, located in the menu of your phone.

You can also get support from the SAP Store team by sending a mail to mobile.business@sap.com.

▼ Download a Solution

To download a solution, tap **Download**. The **Contact Info** screen opens. Here you have the option of filling in your details and checking the box to allow SAP or the solution provider to get in contact with you at a later date.

To continue with the download, tap **Submit**. You will then receive an e-mail with instructions on how to download the solution directly to your phone.

▼ Rate and Review a Solution

To rate a mobile solution that you have downloaded, choose **Send Review to SAP**, which is located in the details of the solution. The **Review** screen opens. Tap a star to rate the mobile solution and write your review for the solution. Then tap **Send to SAP**. The application automatically opens an e-mail with your rating and review. Tap **Send** to forward the review to SAP.

▼ Share a Solution

To share the mobile solution with others, choose **Share this Solution**, which is located in the details of the solution.

- If you want to recommend the solution by e-mail, choose **E-Mail**. The application automatically opens an e-mail with a link to the solution. Simply enter the e-mail address of the person with whom you would like to share the solution and tap **Send** to forward the mail.
- If you want to post the solution on Facebook, choose **Facebook**. You are then directed to the logon screen of the Facebook application.

Please note that you must have a Facebook account in order to use this function.

- If you want to share the solution on Twitter, choose **Twitter**. You are then directed to the logon screen of the Twitter application.

Please note that you must have a Twitter account in order to use this function.
